EMPTY NEST, WHAT'S NEXT?

Parenting Adult Children Without Losing Your Mind

By Michele Howe

Need help adjusting to changing roles as parents of adult children? Unlike the first eighteen years of parenting, moms and dads now take on more of an advisory role and step out of the daily hands-on instructional role. Real-life parenting young adults is often much more challenging than all the earlier years put together. Combine young adult immaturity with a dangerous world, and parents frequently find themselves beset with worry, fear, and anxiety. Intellectually letting go is one thing; emotionally letting go is much more difficult, especially when the consequences are adult sized. Parents will discover a biblical model of faith-inspiring exercises that enable them to not simply cope with the demands of parenting their adult children, but also find peace, freedom, and joy in the process.

THE 5 LOVE LANGUAGES

The Secret to Love That Lasts

By Gary Chapman

"Understanding the five love languages and learning to speak the primary love language of your spouse may radically affect his or her behavior. People behave differently when their emotional love tanks are full."

-Dr. Gary Chapman

This study reveals how different people express love in different ways and contains the key to understanding each other's unique needs. What speaks love to you may be meaningless to your spouse. Apply the right principles, learn the right language, and soon you'll know the profound satisfaction and joy of being able to express your love and feel truly loved in return.

LET HOPE IN

Bible Studies for Life Bible Study Book

By Pete Wilson

So many of us are bound, held prisoner by decisions and events from the past. Imagine complete freedom—a freedom only secured by the hope extended to us in Jesus. Sure, we've all made mistakes. Plenty, in fact. It's part of life. And even today, none of us is immune from feelings of hopelessness. But the Bible tells us and this study reminds us, that we can rejoice when we run into problems because they help us endure and give us strength, character, and hope. We can move beyond regrets and shame. There is a sure hope. We are never beyond hope. Let it in.

FINANCIAL LITERACY

First Class September 26th @ 6:00 PM

By Aaron Ogea

Not Talking Finances Has Consequences:

It's always easy to find a good reason not to talk about money. We don't speak to our kids about money because we don't want them to worry we don't have enough or take advantage of what we do have. We don't talk to our spouses about finances to avoid tension and conflict. We avoid conversations with parents about their financial circumstances. Avoiding this topic may explain why so many are not managing their finances effectively.

Start Talking and Keep Learning:

The financial literacy program makes talking about money easier. In straightforward, easy-to-understand terms, the program also addresses the money issues people will need to think of and address at every major stage of their lives.
